Neuro-Design of Values
8 mins + blockchain minting time

1- Go to the **Neuro-design Stations** in Gallery 2

2- Put on the **EEG (ElectroEncephalography) headset**
Helpers will assist you

3- Focus on mentally controlling the motion of the ball to show how your brainwaves express **YES** or **NO** / **Agree** or **Disagree**

4- By mentally expressing YES or NO, you **contribute to the evolution** of the shape to represent the assigned Value

5- The resulting 3D models become **VoV tokens** automatically registered to Blockchain and a **QR code** is printed. The minting (registration) time depends on the Blockchain traffic

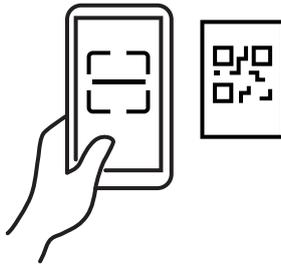

6- Each participant (Brain Worker) receives:
- 1 token given after completion of the neuro-design process by scanning the QR code from the VoV wallet
+ 1 token given directly into the wallet when the next Brain Worker completes the work on the same Value
